

Abdul Wahid

✉ abdul.a.wahid@universityofgalway.ie 📍 Galway, Ireland ✂ K_Neel 🗣 AbNeil 🔗 [abdul-wahid-a5a91368](#)

Education

PhD	University of Galway , Electrical & Electronics Engineering	Galway, Ireland Sept 2019 – June 2024
Master's in En- gi- neer- ing	Chonbuk National University , Electronics and Information Engineering	Jeonju, South Korea Sept 2014 – June 2016
Bachelor's in En- gi- neer- ing	Alba Ghulam Shah Badshah University , Information Technology Engineering	Rajouri, India Sept 2008 – June 2012

Experience

Fidelity Investments , Industry Research Fellow	Galway, Ireland Jan 2026 – present 6 months
Leading a project on market-level markers and temporal trends that best predict long-term forecasting accuracy, robustness, and stability of prediction markets.	
Data Science Institute, University of Galway , Post-Doctoral Researcher	Galway, Ireland Jan 2024 – present 2 years 6 months
School of Computing, National College of Ireland , Associate Lecturer (Part-time)	Dublin, Ireland Jan 2025 – present 1 year 6 months
Technological University of Shannon , Assistant Lecturer (Part-time)	Shannon, Ireland Jan 2025 – Dec 2025 1 year 1 month
Yuncheng University , Lecturer	Yuncheng, Shanxi, China Jan 2016 – Dec 2017 2 years 1 month
Huawei Research , Research and Development Intern	Dublin, Ireland Jan 2022 – Aug 2022 9 months

Awards

Academic-Industry Postdoctoral Fellowship	Jan 2026
Awarded by Research Ireland. Highly competitive national fellowship supporting industry-aligned research with FCAT, Fidelity Investments.	

Publications

Prediction of machine failure in industry 4.0: a hybrid CNN-LSTM framework

Apr 2022

This work proposes a method for multivariate time-series forecasting for predictive maintenance (PdM) based on a combination of convolutional neural networks and long short-term memory with skip connection (CNN-LSTM).

Abdul Wahid

doi.org/10.13140/RG.2.2.11628.78724 (Artificial Intelligence and Optimization in Industry 4.0, MDPI)

Integrating I4.0 Knowledge Graphs with Large Language Models Beyond SPARQL End-points

Aug 2024

A framework integrating Industry 4.0 KGs with LLMs to improve data representation, reasoning, and processing in manufacturing contexts.

Abdul Wahid

doi.org/10.13140/RG.2.2.11628.78724 (ISWC)

TCRSCANet: Harnessing temporal convolutions and recurrent skip component for enhanced RUL estimation in mechanical systems

Mar 2024

A data-driven framework called TCRSCANet combining temporal convolution, recurrent skip components, and an attention mechanism for RUL prediction.

Abdul Wahid

doi.org/10.1007/s44230-023-00060-0 (Human-Centric Intelligent Systems)

Skills

Engineering/AI: Statistical modelling, Machine Learning, Deep Learning, Predictive Analytics, Generative Models, Large Language Models

Languages

Kashmiri: Native speaker

English: Fluent

Interests

Engineering/AI: Large Language Models (LLMs), Knowledge Graphs and Semantic Ontologies, Neurosymbolic Artificial Intelligence, AI Governance, Ethics and Trustworthy AI, Prediction Markets and Computational Market Design, Semantic Web and Intelligent Information Systems

Certificates

Machine Learning

Jan 2018

Generative AI with Diffusion Models

Mar 2026

Deep Learning

Jan 2018

Projects

Multilingual Knowledge Alignment using LLMs and Knowledge Graphs

Jan 2024 – Dec 2026

Developed a multilingual reasoning pipeline integrating transformer-based LLMs with domain-specific knowledge graphs to detect semantic drift across languages and improve contextual consistency in machine translation systems. Implemented using PyTorch, Hugging Face Transformers, and Neo4j.

- Domain Specific Knowledge Graphs
- Semantic Drift
